ABOUT US

A BRIEF STORY ABOUT THE COMPANY

Perfect Engitech & Healthcare Solutions Private Limited in an exclusive association with Nicomac Far East was established to advocate for clean room partitions in the healthcare sector. We have successfully completed over 550 operating theaters and 50 in vitro fertilization (IVF) labs, catering to more than 150 hospitals in India and abroad. With extensive experience in operating theater complex design, patient flow, and integration, we have collaborated with leading hospital architects and consultants across India.

KEY BUSINESSES

- Design, supply, and execution of infrastructure for Modular Operating Rooms and infection-free spaces for sterile environment
- Design, supply, and execution of class 10,000 infrastructure for IVF, including transfer rooms and embryology labs.
- Design, supply, and execution of infrastructure for general ICUs, transplant and HSCT.
- Supply and installation of hermetically sealed sliding/swing doors, windows, pass boxes, x-ray view boxes, theater control panels, automated and manual scrub sinks, plenum, and other accessories.

M.O.C FOR MODULAR OPERATING ROOMS

- Self Standing FR Grade High Pressure Laminate [HPL] Panels with EU certification, USFDA compliant
- Self Standing Powder Coated Galvanized Steel [PCGS] Panels with EU certification, USFDA compliant
- Self Standing Glass Panels.
- EU certified Walk On Ceilings in HPL and PCGS with specified load bearing capacity
- Hermetically sealed swing and sliding doors in HPL & PCGS.
- View panels with motorized vanishing blind control for ample natural light inside O.T.
- Full Glass panels with graphics for providing aesthetics to the inside of O.T.
- For corners and junction all virgin aluminium solid profiles easy to clean.

ACCESSORIES FOR OPERATING ROOMS

- The theatre control panel 10" & 15" with a constant display of HEPA integrity, room pressure, medical gas pressure and alarm display, HVAC temp, RH and AHU control and many other features.
- Plenum box/ laminar airflow made of SS-304 with HEPA H -99.999% efficiency from Freudenberg Germany, along with the provision to mount a DP switch and challenging the aerosol from upstream
- 2 plate & 4 plate x-ray view box with backlight control.

ACCESSORIES FOR OPERATING ROOMS

- Dynamic & static pass-box for transfer of surgical instruments and other items during/post-surgery.
- Glass cupboard with double gasket doors for storing sterile items.
- Automated and manual scrub sink made of SS-304 with automatic soap/betadine dispenser. Available in different sizes.
- Anti-static conductive flooring.
